

Introduction

The new EU General Data Protection Regulation (GDPR) comes into force on 25 May 2018 (including in the UK regardless of its decision to leave the EU) and will impact every organisation which holds or processes personal data. It will introduce new responsibilities, including the need to demonstrate compliance, more stringent enforcement and substantially increased penalties than the current Data Protection Act (DPA) which it will supersede.

The ICO have issued a [12 step GDPR compliance guide](#).

Advance TM Group is committed to high standards of information security, privacy and transparency. We place a high priority on protecting and managing data in accordance with accepted standards including ISO 27001. Advance TM Group will comply with applicable GDPR regulations when they take effect while also working closely with our customers and partners to meet contractual obligations for our procedures services.

Data Protection

Advance TM Group contain all of the data processing “in-house” and rely on Microsoft’s Office 365 for data management. The security of Office 365 and the other applications in use is maintained through continuous application of program updates automatically from suppliers backed up by automated routines executed on our behalf by our IT Support and Maintenance provider.

All PC’s are UserID / password controlled for access and email, which is also part of Office 365, is individually user controlled.

Common data is shared by the organisation via a file server which is kept in a secure location within the office.

Daily data backup is automated and secures a copy of our transactional data in the cloud via our IT Support and Maintenance provider. This data is held within the EU and is kept in a 256 bit encrypted format.
